

What Is the Alex Community Health Bus?

The Alex Community Health Bus is a partnership between The Alex and the Calgary Board of Education, which brings health care directly to youth at their high school. The goal is to help your youth lead healthy lives and access resources they need without missing classes. The bus comes to each designated school every one or two weeks on a regular schedule during school days. All visits are free and confidential.

What happens on the bus?

The bus is staffed by a medical team (doctor and nurse) and a client resource specialist.

"I like that I can talk to a nurse and doctor without feeling judged or uncomfortable with them" – Alex bus client
